

# lipo-draineur detox

dietary supplement, concentrated drinkable solution of plants with draining and depurative action.

## product description:

the lipo-draineur detox is a dietary supplement available as a drinkable red fruit-flavored solution. it is a concentrate of plants with draining and depurative properties, made with more than 98% of ingredients of natural-origin. its unique formula has been optimized for a « large spectrum » detox action.

plants that activate the release and the metabolism of fat (guarana, papaya, pineapple) have been combined with draining plants (dandelion, meadowsweet, chicory, quack grass), diuretic plants (birch, ash tree, green tea) and plant with appetite-suppressant effect (ash tree). the formula was completed with fructo-oligosaccharides and an extract of green algae, rich in vitamins, minerals and proteins. fructo-oligosaccharides are endowed with prebiotic properties, that is to say they promote the proliferation of probiotic bacteria (for a balanced microbiota). at optimum concentration, these plants help restore a more harmonious silhouette, eliminate water retention and cellulite.

**main active ingredients** : guarana (caffein), papaya, pineapple, green teat, dandelion, meadowsweet, chicory, quack grass, birch, ash tree

**directions for use** : 1 dose (20ml / measuring cap) per day to be diluted into a glass of water, preferably in the morning, during breakfast. shake the bottle before opening. 1 bottle = 25 days of treatment, renewable if necessary. daily dose = less than 0,6 calorie

**presentation** : bottle 500 ml / 535 g

**things worth knowing** : the lipo-draineur detox has been developed to complete et boost the effect of our slimming tablets cure minceur. a large number of active ingredients are similar, others have been added for a detox effect, and an action on the microbiota. cure minceur and lipo-draineur detox are efficient separately and ultra-performing when associated.
